3. **Product Description**
   A powerful oil eating microbial based cleaning solution ideal for removing dirt and remediating all types of hydrocarbon based products. Mr. Eats-It hydrocarbon will remove oil and fuels and grease/lubricants in a variety of applications where oil contamination is a challenge to clean.

   Key Features:
   - Effectively cleans oils, fuels, solvents and grease/lubricants from concrete, tile, plastic and wood
   - Excellent surface preparation cleaner for areas that are going to be sealed, recoated or overlaid with concrete repair products
   - Use daily to clean oil from all types of surfaces especially where slip and fall issues can occur
   - Does not need to be neutralized
   - Does not leave a chemical residue
   - Microbes keep on remediating hydrocarbons long after the cleaning is complete
   - Excellent metal cleaner where oil hinders repainting
   - Will not etch or damage concrete or coatings. Mr. Eats-It Hydrocarbon does not promote

   rust or cause corrosion to metals and is safe to use on fiberglass or plastic

4. **Application Instructions**

   - Read entire label before using. Shake well before using. Mr. Eats-It Hydrocarbon can be used upon opening but can also be diluted to as much as 3:1 ratio with water.

   - Moisten area to be cleaned with water and apply Mr. Eats-It-Hydrocarbon with a low pressure, pump-up sprayer or pour on directly.

   - Agitate surface with a deck brush, stiff bristle broom or mechanical scrubber. Agitation is essential to break down the oil and dirt for faster digestion and cleaning. Agitate surface periodically and keep the area moist while the bacteria are working.
   - The dwell time needed for surface prepping for sealing or recoating is 1-2 hours
   - The dwell time needed for daily cleaning is 5-10 minutes
   - Surfaces that have been exposed to oil for a long period of time may require longer dwell times in order for the microbes to completely clean and digest all the contamination
   - Upon completion, rinse thoroughly with clean water to a drain or rinse and wet vacuum up the dirty liquid

- Rinse pump up sprayer and scrubbing equipment with warm or cold tap water. Spray equipment does not need to be cleaned after each use.

5. **Storage**
   - Mr. Eats-It Hydrocarbon has a 2 years shelf life.
   - Close container tightly after each use.
   - Store in original container only.
   - Store in and use in temperatures between 32 degrees and 120 degrees. Do NOT allow to freeze

6. **Availability**
   - Contact Microbial Restorations for distribution information (847) 849-0163.
   - Item Code: Mr. Eats-It Hydrocarbon
   - Size: 5 gallons or 53 gallons
   - Package: 5 gallon pail or 53 gallon drum

7. **Coverage**
   200-300 square feet per gallon depending on contamination and dilution rate.

8. **Technical Services Information**
